

What our students say...

Tute Courses

Tute Courses offers qualifications in a choice of 30+ subjects at Level 1/ 2, GCSE, AS and A Level

www.tute.com/tute-courses

Tute courses are utilised by schools, alternative providers, home educators and for students without alternative provision. Courses are a long-term provision, usually for a year or two years. Students often join our courses at a disadvantage; they may have been out of mainstream education for a considerable amount of time, may need to complete their courses in a condensed time period. In our courses, we often see a higher proportion of students with challenges such as SEND, SEMH and attendance issues. This makes their progress and attainment all the more impressive.

What do Tutees say about Tute Courses?

Our student commented on what they've enjoyed most about learning online with Tute:

I'm really thankful for all of the hard work that my teacher has put in in order to teach us for the past couple of years - her encouraging feedback and insightful lessons really helped me thrive in regards to learning (and understanding) the exam material and producing coursework too.
Thank you!

The real interaction and the close-knit community makes it very easy to learn

My teacher, he has been amazing in really trying to get me the best grade possible and pushing me to do my best

I understand the work and get it explained to me it's easier to say I don't understand as I don't know anyone!

I have enjoyed my lessons and feel I have so far got a lot out of them. I think it is a very unique way of learning, and in a way an experience and privilege to be able to learn such an interesting topic in a on-going group discussion such as what tute offers, you can freely add input to a lesson and any queries the student may have is easily dealt with making the lesson much more functional

In particular, I enjoyed being taught by an academic who understood his topic very well and conveyed his passion for the different aspects of the course. I feel as though the tutors commitment to the course focused me and motivated me to engage more in the course

I really enjoy Tute as I feel I learn a lot in a short time and the teachers are understanding of the current circumstances and they push us to achieve but they never cause us to stress out or panic

They allow me to get a good insight into a subject which i feel passionate about and enjoy

Being able to improve my independent study skills with the frequent (and very much beneficial) help of a teacher who was highly knowledgeable and passionate about the subject

it's a very interesting and new way of learning which I have enjoyed a lot over the last 2 years. It also allows you to be more independent and responsible for your own learning which is very important I believe

I have really enjoyed feeling more confident about answering questions & voicing my opinions. I really like how the timings of the lessons give you chance to do more of what you enjoy. I also have anxiety in which being in a normal classroom is REALLY hard for me, and that makes me fall behind. With Tute I do not have to worry about that, which helps me to concentrate more on the work and helps me learn a lot more. It has really helped me and I love it! The teachers are fantastic and really kind and nice. We all help each other out in the chat room, and complete the work given at a high level. I cannot stress enough how much I really love this platform and how much it already has helped me, I really look forward to my schooling future with Tute, and I have NEVER looked forward to doing education

It's a lot easier to listen there aren't distractions they explain it very well

One of the best decisions in my life

If you have anxiety or mental health problems then Tute is perfect for you
