

## What Tute does is simple

Our qualified, experienced teachers deliver live online lessons to fill gaps in the education of children and young people

### Virtual Environment

- Online classroom
- Inclusive
- Engaging
- Safeguarded

### Real Teachers

- Fully-qualified teachers
- Enhanced background checks
- Rigorous online training
- Passionate educators

### Real Outcomes

- Student at the core of everything we do
- For all students of all backgrounds
- Different needs and abilities
- Overcome barriers to learning

## Tute for Local Authorities

These three products are most frequently commissioned by LAs

Local Authorities (LAs) partner with Tute to fulfil their statutory obligation to offer students a high quality rich and inclusive curriculum. LA departments responsible for **SEND, Inclusion, Alternative Provision, Children Looked After, UASC**, children with **medical needs** and more are using Tute to ensure every child has the chance to fulfil their potential.

### Tute Virtual School

#### Alternative provision in core subjects, humanities and beyond from KS1 to KS4

Our Virtual School (VS) serves many students including those who have been excluded, need day 6 provision, re-engagement with learning and short-term alternative provision. Many students are with us long term because they engage in their learning and cover content and skills that are often difficult for LAs to provide in challenging circumstances. It is sometimes the case that the VS is a child's only source of education and for some, is part of a wider solution with other provision slotting in around the learner's chosen timetable with Tute, the focus is always on doing what is best for the students.

### Tute Courses

#### Qualifications in a choice of 30+ subjects at Level 1/2, GCSE, AS and A Level

Tute Courses can benefit students in any type of education setting and present the same opportunities for those unable to attend school. Our courses are used by LAs to fulfil their statutory obligation to ensure students secure essential core subject qualifications. Our one-year GCSE offer is particularly relevant to those students in year 11 who have significant gaps in their learning and need a concentrated route to covering the complete course specification and preparing for exams in a shorter time.

### Tute ESOL

#### Supporting UASC student with language acquisition, from pre-entry level upwards

Our ESOL programmes are suited to UASC and EAL students who may be starting from scratch with basic language acquisition or building on their language skills to enable better access to the British National Curriculum and life beyond.

Tute ESOL can be used as an interim measure whilst waiting for places in local provision to become available or to provide ongoing support to students whilst they are in school. Our offer includes a 6-week ESOL survival programme suitable for access via mobile phone.
